CAREER OBJECTIVE

Experienced Java Developer that dreams in Java and has a solid grasp on web services development and complex application development. I am excited to continue my career by joining a company composed of driven professionals who value creative problem solving and strive to revolutionize Centria's healthcare.

WORK EXPERIENCE

Java Developer

Deloitte

📅 May 2018 - current   📍 Lansing, MI

- Designed software solutions by analyzing system performance standards, increasing performance efficiency by 27%.
- Analyzed systems flow, data usage, and work processes, and investigated problem areas.
- Planned, tracked, and managed deliverables on short-term sprints and long-term software deployments.
- Developed and executed test procedures for software components.

Junior Java Developer

Perficient

📅 January 2016 - April 2018   📍 Ann Arbor

- Designed and coded unit/integration testing using Perficient methodology.
- Utilized strong configuration management and version control to ensure peak system performance throughout 20+ changes.
- Learned company standards of application software development, Agile, and iterative development methodologies.
- Created detailed design documentation, unit test plans, and well-documented code that was used in training for the 12-week summer intern program.

Software Developer Intern

Arup

📅 June 2015 - January 2016   📍 Ann Arbor, MI

- Collaborated with 15+ experts across a range of domains to identify and study data sets to produce visuals and other tools.
- Assisted in developing product roadmaps, providing specific suggestions that led to a 10% decrease in the overall timeline.
- Represented the services and offerings of the Digital Insight team by conveying work to other teams through presentations 5+ times per month.
- Worked with R&D team to identify critical, emerging technologies, and performed strategic research.
